

BC Colleges

Sharing of Educational Priorities

Scott McAlpine

May 30, 2013

Key emerging trends in our region that impact education delivery or influence college direction

- Changing demographics
- Growth in student demand for degree programs
- Increased university involvement within the community and emerging interest in access

5 education priorities in the next 3-5 years (that align with our current strategic priorities)

- New degree programs
- New post-degree diploma programs
- Integration of essential skills within programs
- Adjusting to changes in funding for ESL
- Improving admission processes

3

New key innovation and/or education development in the next 5 years

- Launch new 1 + 3 nursing degree program

4

Education areas at greatest risk and greatest opportunity

- ESL - depending on the success of Federal funding

5

3 areas for partnership or collaboration

- Growth in SFU degree partnership program
- Science partnerships with Industry
- International partnerships with Business programs
